Maths Online

Whole School Subscription

Dear parents and carers,

This year, K-6 teachers will incorporate the Maths Online program into their teaching and learning programs. The Opportunity Classes have now used the program for a number of years and it has proven extremely valuable in relation to enhancing students' differentiated outcomes.

<https://www.mathsonline.com.au/>

The program is particularly valuable in providing individual instruction and flexibility, as required. Due to the wide selection of online tutorials, students can revisit concepts, providing further opportunities for strong consolidation. Children also have the opportunity to explore topics of interest and revision.

In 2019, Maths homework (skills revision and practice) will be administered via Maths Online. We encourage you to explore the site and its potential with your child.

Thank you for returning the permission slip and \$10.00 payment promptly to the front office (the preferred payment method is online). Part of the cost has been subsidised by the school to support all students accessing this wonderful learning resource. Students will receive Maths Online access from Week Five, if payment has been received.

Kind regards,

Rielle Nelson

Assistant Principal Relieving
